

Secure Cloud Fax

Tired of replacing toner and buying paper for faxes? Want to better protect your data, reduce your eco-footprint, and lower faxing costs? BullsEye Telecom's Secure Cloud Fax, powered by eFax Corporate®, lets you send and receive faxes anywhere using cloud faxing.

The BullsEye Way

Secure Cloud Fax is a simple, reliable fax solution that allows you to enjoy significant cost savings.

1.
Assess fax
requirements

2.
Implement
cloud
solution

3.
Demonstrate
efficiencies

4.
24/7 ongoing
support

With Secure Cloud Fax, your faxes are sent straight to your email, keeping them private, confidential, and secure. Choose from multiple cloud-based plan options that are scalable and flexible to meet your exact needs.
